Olympia, WA 98516

Re: Water Right Permit No. G2-29374 (ARP Water System) – **FINAL NOTICE**

Dear Ms. Pontarolo:

This water right was issued for 40 gallons per minute and 1 acre foot per year to serve two homes. This letter is to remind you that the development schedule of your water right permit required that water be at full beneficial use and the Proof of Appropriation form submitted immediately. If you believe that you are using the full amount of water, please submit the enclosed Proof of Appropriation form. You will need to include applicable metering records, notarize the form, and return it to Ecology as soon as possible. If there are extenuating circumstances that delay putting the water to beneficial use, you must contact us in writing to request an extension. **By statute, a \$50.00 fee must accompany such a request, together showing a good cause of why your extension should be granted, a report of progress made since the last extension was granted, and a development plan to complete the project.** The extension request and accompanying fee should be sent to:

Washington Department of Ecology
Cashiering Section
PO Box 5128
Lacey, WA 98509-5128

If you are no longer interested in pursuing this water right permit, please send a written letter requesting cancellation to the Department of Ecology as soon as possible.

If you have any questions, please contact me at (360) 407-6918 or at abro461@ecy.wa.gov. Thank you for your attention to this matter.

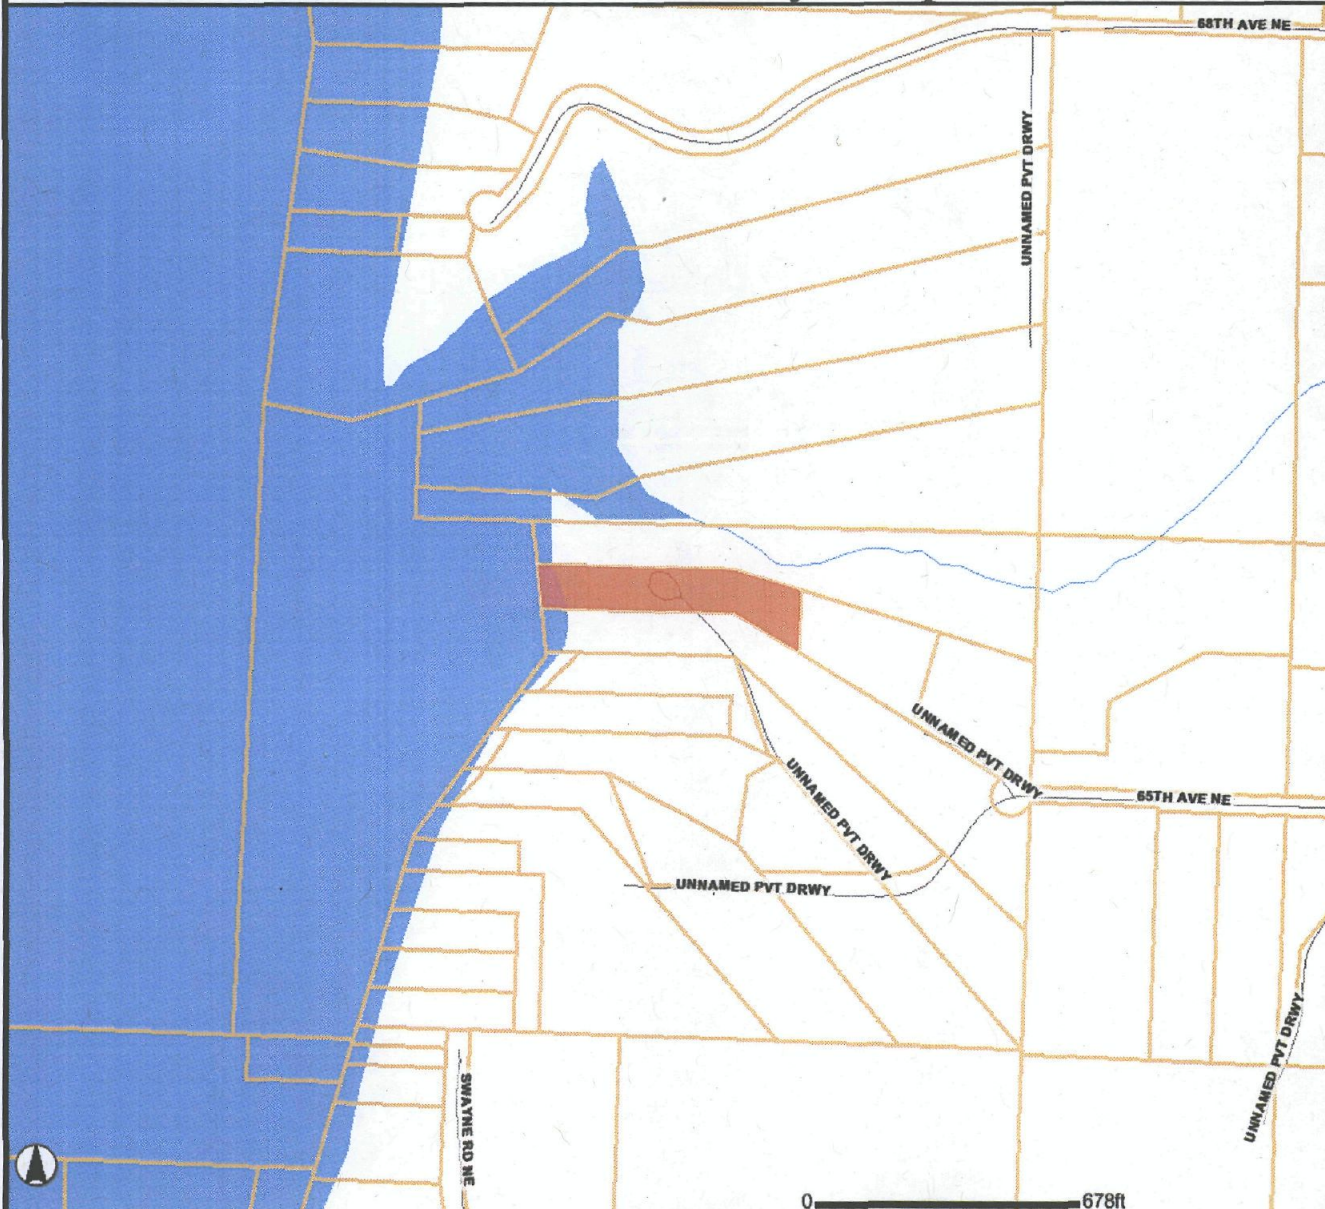

Sincerely,

Abby Brown
Water Resources
Southwest Regional Office
